

Why Do
I Have
wings?
by Grace
Koenig

Why do I have wings?
Pig splashes in the mud. I can't do that!
Flamingo can stand on one leg. I can't stand on one wing!
I'll go ask Frog. He knows everything!

"You have wings for lots of special things" said Frog. "They are really beautiful and they make you fly. You should ask your other friends." So Butterfly went to see Elephant.

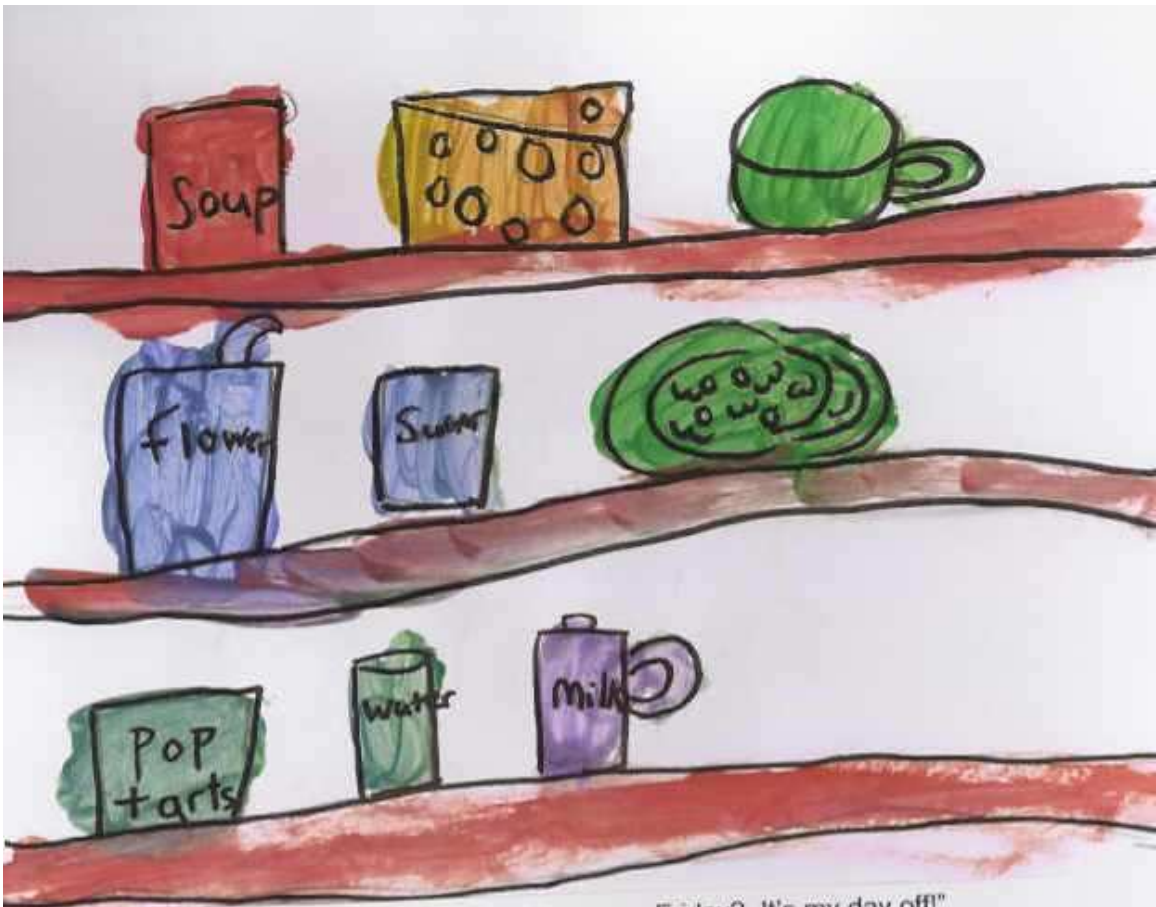

Elephant said, "you have wings for things I can't do. Your wings take you to flowers but I have to walk everywhere. You should go ask Giraffe."

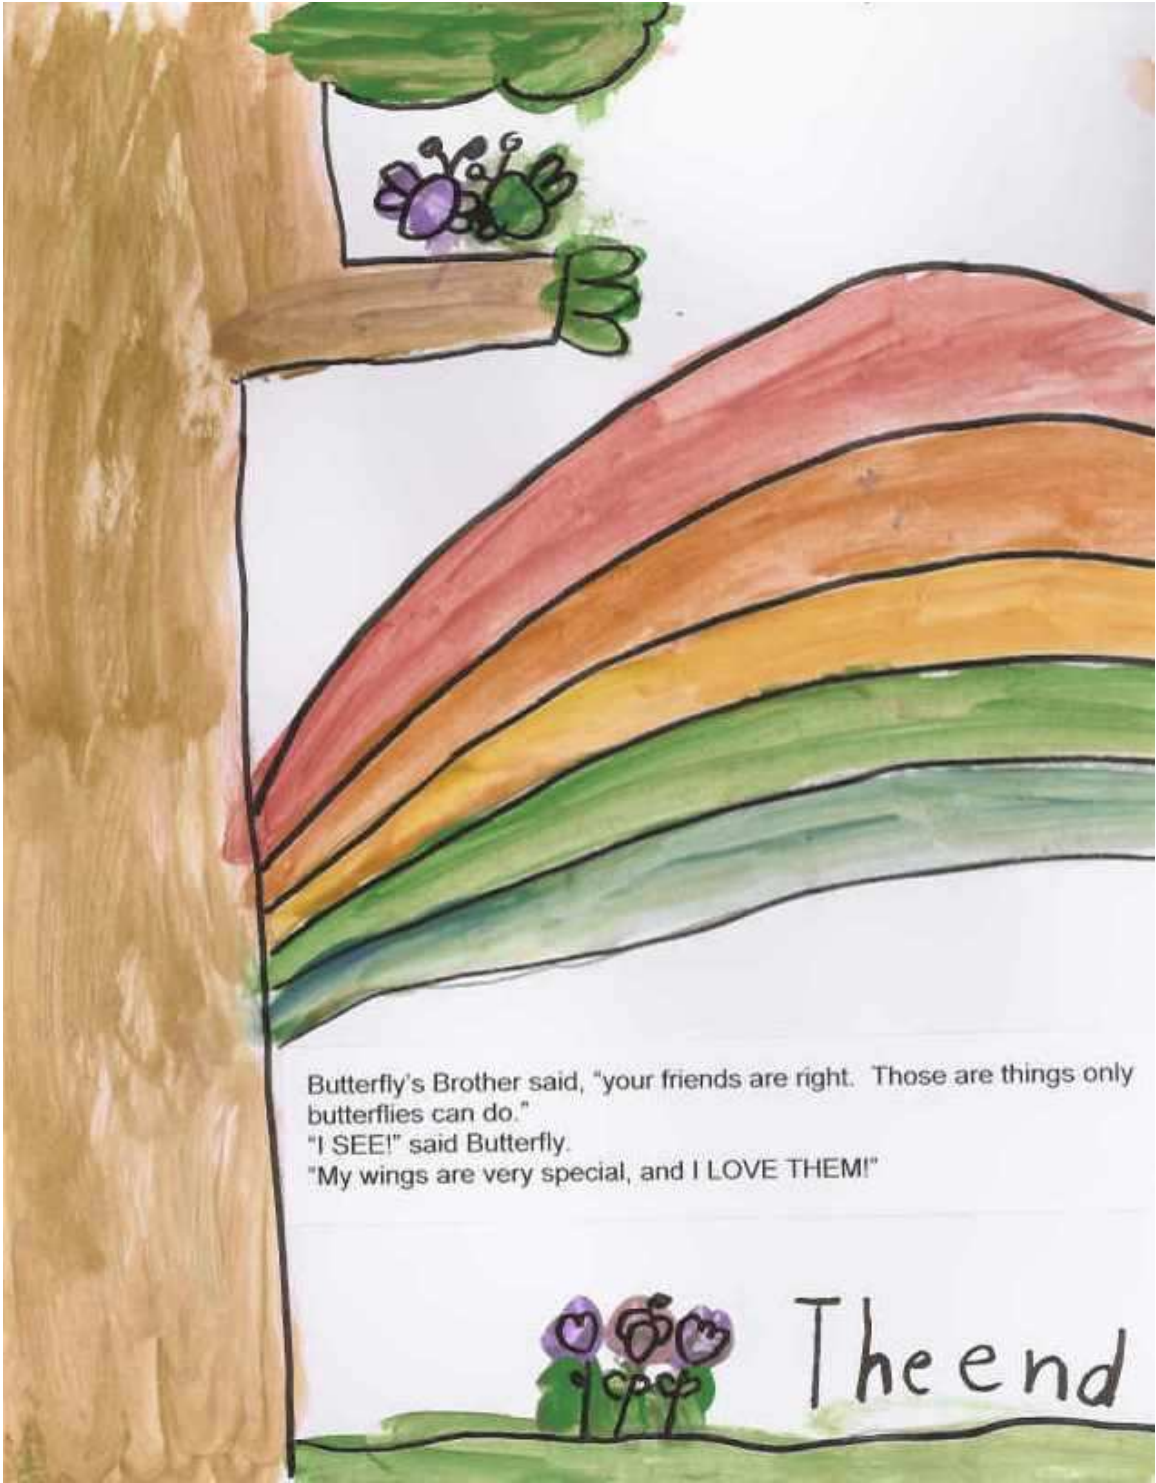

Giraffe said, "you can reach leaves higher than I can with my long neck. You should go ask Mouse."

Mouse said, "why are you here on a Friday? It's my day off!"
"I'm here to see why I have wings" said butterfly.
"I can't reach anything from down here! You can get stuff better than me! Now I think you should go ask your favorite Brother" said Mouse.

Butterfly's Brother said, "your friends are right. Those are things only butterflies can do."
"I SEE!" said Butterfly.
"My wings are very special, and I LOVE THEM!"

The end
