5/25/09	137	138	139	136	140

SID THE SCIENCE KID is a new educational animated television series using comedy to promote exploration, discovery and science readiness among preschoolers. SID THE SCIENCE KID, The Jim Henson Company's first series for PBS KIDS that features a practical in-school science curriculum (visit the website at pbskids.org/sid), uses music and humor to celebrate children's natural curiosity about science in everyday life. The energetic and inquisitive Sid starts each episode with a new question ("Why are my shoes shrinking?" "Why do bananas get mushy?"), and embarks on a fun-filled day of finding answers with the help of family and friends. Call 216-916-6352 for a new schedule. Rights: one year from each broadcast.
